

Early Parkinson's Disease Detection Report

Report Generated: 2026-09-30 21:23:47 | Model Backbone: ResNet-18 Transfer Learning

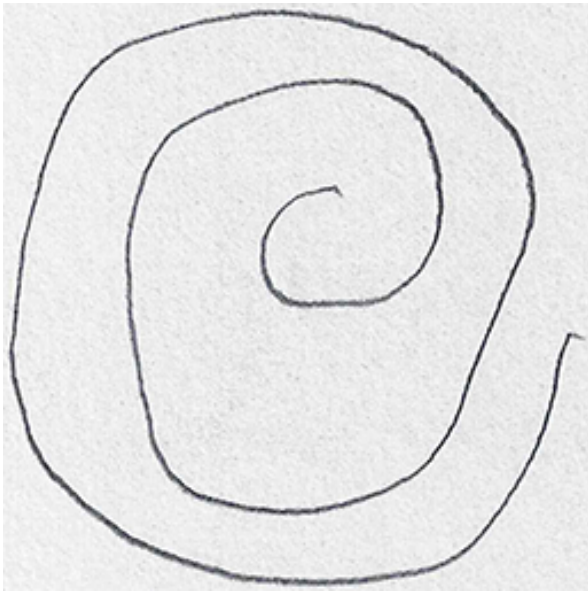

Diagnostic Prediction:	PARKINSON'S DISEASE
Confidence Score:	94.25%
Stroke Smoothness Metric:	72.40 / 100

Visual Analysis & Grad-CAM Heatmap Explainability

Original Preprocessed Drawing

Grad-CAM Tremor Heatmap

Notice: This automated diagnostic report is generated by a computer vision deep learning model (ResNet-18 with Grad-CAM visual attention mapping). It is intended solely to assist medical professionals and point-of-care clinicians in early screening and should not be used as a standalone medical diagnosis.
